Advances in Physiology Education

DECEMBER 2005/Volume 29
Issues published quarterly online prior to print
in March, June, September, and December
http://advan.org

TABLE OF CONTENTS FOR ISSUES 1–4

No. 1. MARCH, 2005

ARCHIVE ADDITIONS 1

A PERSONAL VIEW

Aims of undergraduate physiology education: a view from the University of Chicago
M. E. Feder 3

HOW WE TEACH

"Non-trivial pursuit of physiology"
V. Zakaryan, R. Bliss, and N. Sarvazyan 11

TEACHING WITH PROBLEMS AND CASES

When the heart is stopped for good: hypotension-bradycardia paradox revisited
E. S. Prakash and Madanmohan 15

TEACHING IN THE LABORATORY

The locust jump: an integrated laboratory investigation
J. Scott 21

Cat dissection vs. sculpting human structures in clay: an analysis of two approaches to undergraduate human anatomy laboratory education
J. R. Waters, P. Van Meter, W. Perrotti, S. Drogo, and R. J. Cyr 27

TEACHING WITH TECHNOLOGY

Blending problem-based learning with Web technology positively impacts student learning outcomes in acid-base physiology
S. K. Taradi, M. Taradi, K. Radić, and N. Pokrajac 35

A multimedia CD-ROM tool to improve student understanding of bile salts and bilirubin metabolism: evaluation of its use in a medical hybrid PBL course
S. A. Azer 40

ILLUMINATIONS

Chewing over physiology integration
F. Abdulkader, A. K. Azevedo-Martins, M. de Arcisio Miranda, and K. Brunaldi 51

No. 2. JUNE, 2005

EDITORIAL

"Big science" and interdisciplinary science
J. Michael 55

Helping to define graduate education: the APS/ACDP list of professional skills for physiologists and trainees
R. G. Carroll 56

ARCHIVE ADDITIONS 57

THE PHYSIOLOGY TEACHER

Allen A. Rovick, PhD: in memoriam
J. Michael 58

STAYING CURRENT

Ethics and scientific publication
D. J. Benos, J. Fabres, J. Farmer, J. P. Gutierrez, K. Hennessy, D. Kosek, J. H. Lee, D. Olteanu, T. Russell, F. Shaikh, and K. Wang 59

CFTR in cystic fibrosis and cholera: from membrane transport to clinical practice
B. E. Goodman and W. H. Percy 75

HOW WE TEACH

Valid and reliable authentic assessment of culminating student performance in the biomedical sciences
D. M. Oh, J. M. Kim, R. E. Garcia, and B. L. Krilowicz 83

Student perspectives of assessment by TEMM model in physiology
R. R. Abraham, S. Upadhya, S. Torke, and K. Ramnarayan 94

A new paradigm for graduate research and training in the biomedical sciences and engineering
J. D. Humphrey, G. L. Coté, J. R. Walton, G. A. Meininger, and G. A. Laine 98

Exercise, nutrition and you: an off-campus course for grades 2–12
A. C. Snyder and D. K. Mauzy-Melitz 103

HOW WE LEARN

Peer instruction enhanced meaningful learning: ability to solve novel problems
R. N. Cortright, H. L. Collins, and S. E. DiCarlo 107

Comparing biology majors from large lecture classes with TA-facilitated laboratories to those from small lecture classes with faculty-facilitated laboratories
B. E. Goodman, K. L. Koster, and P. L. Redinius 112

TEACHING IN THE LABORATORY

Teaching principles of cardiovascular function in a medical student laboratory
S. Gupta, T. C. Westfall, A. J. Lechner, and M. M. Knuepfer 118

ILLUMINATIONS

Teaching glycolysis regulation to undergraduates using an electrical power generation analogy
S. Stavrianeas and T. Silverstein 128

Blunder lecture–an innovative method of teaching
N. B. Satheesha, S. N. Somayaji, and K. Ramnarayan 130

Student demonstration of relationship between intestinal slow waves and phasic contractions
K. J. LePard 131

"Futile cycling" in physiologic control systems: a price paid for fine control
K. Aishwarya, K. Rachana, and E. S. Prakash 132

Self-directed learning
R. R. Abraham, S. Upadhya, and K. Ramnarayan 135

No. 3. SEPTEMBER, 2005

EDITORIAL

Processing color figures: that was then, this is now
E. J. Pesanelli 137

Using classic papers to teach physiology
H. Raff 138

ARCHIVE ADDITIONS 139

TEACHING WITH CLASSIC PAPERS

Teaching glucocorticoid negative feedback and adrenocortical regulation using a classic paper by Dr. Dwight Ingle
H. Raff 141

HISTORICAL PERSPECTIVE

The evolving role of animal laboratories in physiology instruction
A. W. Ra'anan 144

STAYING CURRENT: TECHNOLOGY

The power of real-time PCR
M. A. Valasek and J. J. Repa 151

TEACHING IN THE LABORATORY

How to engage medical students in chronobiology: an example on autorhythmometry
M. A. Rol de Lama, J. P. Lozano, V. Ortiz, F. J. Sánchez-Vázquez, and J. A. Madrid 160

An experimental approach to the fundamental principles of hemodynamics
F. Pontiga and S. P. Gaytán 165

MISCONCEPTIONS

Prevalence of blood circulation misconceptions among prospective elementary teachers
N. J. Pelaez, D. D. Boyd, J. B. Rojas, and M. A. Hoover 172

ILLUMINATIONS

How to be a bad teacher
E. S. Prakash 182

Merit-based rearrangement of students for better interactions
S. Nayak, K. Ramnarayan, S. N. Somayaji, and S. Bhat 183

Open-book tests and student-authored exam questions as useful tools to increase critical thinking
P. M. Vanderburgh 183

No. 4. DECEMBER, 2005

EDITORIAL

APS Teaching Career Enhancement Awards
D. U. Silverthorn 185

THE PHYSIOLOGY TEACHER

A section devoted to profiles of renown teachers and to the recognition and accomplishments of physiology teachers within the society 186

CLAUDE BERNARD DISTINGUISHED LECTURE

Charting a global future for education in physiology
A. J. Sefton 189

A PERSONAL VIEW

Problem-based learning and the medical school: another case of the emperor's new clothes?
R. Butler, D. Inman, and D. Lobb 194

HOW WE TEACH

Using student feedback to construct an assessment rubric for a concept map in physiology
R. W. Moni, E. Beswick, and K. B. Moni 197

A model for understanding membrane potential using springs
D. L. Cardozo 204

ILLUMINATIONS

A capstone experiential learning exercise for undergraduate physiology laboratory courses
C. M. Krane 208

Proprioception: confronting prior knowledge
A. Novicki 210

Documenting the effectiveness of an educational tool and group discussion for understanding the cardiovascular adjustments to upright posture
M. M. Masterson and A. L. Morgan 211

Insensible water loss during sleep: a theoretical exercise
S. Weissenberg 213

MEETING REPORTS AND ANNOUNCEMENTS

International Union of Physiological Sciences Teaching Workshop, April 7–10, 2005, Pali Mountain, California
P. A. Hansen and A. J. Sefton 216
